

TRITON[™]308

fine finish spray packages for wood and metal applications

Finally... a dia

TRITON is an air-operated diaphragm spray package that applies a high quality, decorative finish to wood and metal parts.

TRITON is a more effective alternative to traditional pressure pots and standard diaphragm pumps.

Features

HIGH QUALITY FINISH

 Low pulsation output and smooth pump changeover deliver a consistent spray pattern.

EASY-TO-USE

 Quick color changes and fast material refills save time and money.

RUGGED CONSTRUCTION

 Stainless steel or aluminum pump handles a wide variety of fluids.

Key Applications

TRITON is designed for all types of metal and wood applications:

Applying primers, basecoats and topcoats for:

- General Metal Fabrication
- Farm and Construction
- Truck and Bus
- Automotive Components and Touch-up

Spraying stains, sealers, lacquers and topcoats for:

- Wood Furniture and Cabinetry
- · Wood, Windows
- Customized Wood

Available Technologies:

- Air Spray
- HVLP
- Compliant
- Electrostatic

phragm spray package specifically designed for the

Best Spray Finishing Package in its Class!

finishing market.

Upgrade Your Standard Diaphragm Pumps to TRITON

High-Performance Finishing

LONGER PUMP LIFE

- Rugged stainless steel or aluminum construction requires less maintenance than a plastic pump.
- Twice the output per stroke.
- High output per stroke means less pump wear.

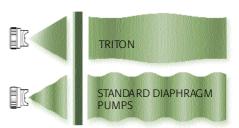

EXTRA PUMPING POWER

• 30% more suction power than a standard diaphragm pump to handle higher viscosity materials.

LOW PULSATION OUTPUT!

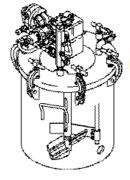

SUPERIOR FINISH QUALITY

- · Consistent pattern and film on parts.
- Constant flow to the spray gun.

TRITON pump provides 50% less pressure pulsation than standard diaphragm pumps.

Note: Pump-to-pump comparison without fluid regulator.

Upgrade Your Pressure Pots and Cup Guns to TRITON

Finishing Made Simple

- Refill and monitor material level while spraying for easier operation.
- Complete color changes in less than three minutes for reduced downtime.
- Circulation Valve lowers solvent usage during clean-up and color changes.
- Circulate materials, if needed.

Model No. 233743 with PRO Xs2 Gun shown

ABOUT GRACO

PROVEN QUALITY. LEADING TECHNOLOGY.

Founded in 1926, Graco is among the leading group in fluid handling systems and components. Graco products move, measure, control, dispense and apply a wide range of fluids and viscous materials used in vehicle lubrication, commercial and industrial settings.

The company's success is based on its unwavering commitment to technical excellence, world-class manufacturing and first-class customer service. Working closely with qualified distributors, Graco offers systems, products and technology which set quality standards in a wide range of fluid handling solutions. Graco provides equipment for spray finishing, protective coating, paint circulation, lubrication, and dispensing sealants and adhesives, along with power application equipment for the contractor industry. Graco's ongoing investment in fluid management and control will continue to provide innovative solutions to a diverse global market.
